

# THE BEST VALUE IN WI-FI

PATENTED  
TESTED  
CERTIFIED  
SECURE

10X  
FASTER

than current ATG networks, with speeds that rival 4G Wi-Fi on the ground

20X  
BANDWIDTH

of the current ATG industry standard, allowing for real-time, bidirectional IFC

With everything you get from SmartSky 4G LTE – blazing-fast internet, minimal latency, real-time video streaming and the ability to conduct business as fast as you can on the ground – you might expect it to cost more than other inflight connectivity solutions. But the best service in the industry is also the most cost-effective.

## NETWORK LAUNCH PROMOTION. LIMITED-TIME OFFER.

Harness SmartSky's innovative beamforming power without overage fees. Sign up during our nationwide Network Launch Promotion and receive bonus data, including an unlimited option. Use all the data you want for an affordable, fixed monthly fee.

### BOOSTS TO INTRODUCTORY PLANS

|                               | BASIC          | CORPORATE      | ENTERPRISE      |
|-------------------------------|----------------|----------------|-----------------|
| STANDARD MONTHLY DATA ALLOWED | 5 GB           | 15 GB          | 25 GB           |
